Università di Brescia

DIPARTIMENTO DI ECONOMIA E MANAGEMENT

Titoli Tesi di Laurea dei Corsi di Studio Magistrali

Corso di Laurea in Analytics e Data Science per l'economia e il management

agg. ottobre 2026

COGNOME	NOME	TITOLO	RELATORE
		Ottobre 2026	
BOSIO	SIMONE	Analisi del benessere nelle province italiane: un approccio basato su Spatio-Temporal Jump Model	RIPAMONTI ENRICO
BRAGHINI	NICOLÒ	Artificial intelligence for sports nutrition: the BlueLife project	LOCORO ANGELA
CAPPIELLO	ISABELLA	Does the "One-Euro Houses" Initiative Generate Territorial Impact? A National Causal Evaluation in Italian Municipalities	PONTAROLLO NICOLA
COMINCINI	MARZIA	Interazione Uomo-IA nel processo decisionale: un'indagine qualitativa sulla fiducia degli utenti nell'intelligenza artificiale	LOCORO ANGELA
DOKA	MARIE	Towards a Dynamic Forecast: The Adoption of Next-Gen Solutions for Agile Planning	ROCCA LAURA
FATIMA	SAMMAN	Opportunity or Crisis? A Multi-Label NLP Classifier for Media Framing of Pakistani Emigration News	LOCORO ANGELA
FERRARESI	GABRIELE	Predicting wages across OECD countries: a multilevel analysis using cross-national adult skills data	MANISERA MARICA
GYAMFI	ENOCK OPOKU	Analisi del sentiment e dei temi dei commenti Instagram relativi al Comune di Brescia tramite BERT e Large Language Model (LLM)	LOCORO ANGELA
INCECCHI	FILIPPO MARIA	A Multi-Agent LLM Architecture for Financial Question Answering Based on a Local Model	LOCORO ANGELA
NASSINI	FRANCESCO	Geographically Weighted Logistic Regression for spatial prediction of shot scoring probability in basketball	MANISERA MARICA
PAGANI	GIACOMO	Understanding household wealth in Italy: A statistical learning approach	MANISERA MARICA
PIERINI	MASSIMO	Forecasting Monthly Post-Consumer Textile Waste Production in the Province of Brescia	FALBO PAOLO STEFANO
PIZZETTI	CHIARA	Does Proximity Matter? Terrorism Salience Following the 2015 Paris Attacks	PONTAROLLO NICOLA
PORRU	MATTIA	The Latent Structure of Digital Competence and Educational Achievement: Evidence from Italian Student-Level Data	RIPAMONTI ENRICO
RIGAMONTI	ENRICO	Temporal Convolutional Networks for Multivariate Time Series Forecasting: An Empirical Cost-Benefit Analysis	ZANARDELLI RICCARDO
SARAMONDI	CRISTINA	"Does where you live shape your life satisfaction? Country attachment and urban-rural divide across European countries: evidence from the European Social Survey"	PONTAROLLO NICOLA
		Luglio 2026	
PIANTELLI	GLORIA	Data-driven analysis of the Olympic games: application of statistical models for classification	MANISERA MARICA
TRELLES ESTRELLA	KARINA GRACIELA	Who Wants to Leave? Determinants of Migration Aspirations among High School Students in Ecuador	PONTAROLLO NICOLA
		Marzo 2026	
FANTONI	NICOLA	Aspect-Based Sentiment Analysis for online reviews of the Factory Outlet Centres in the Promos portfolio	LOCORO ANGELA
FRACASSI	DIEGO	The Evolution of Physical Advantage in the NBA: A Comparative Analysis of Strategy and Efficiency	MANISERA MARICA
MINO	LORENZO	Understanding Capital Structure Changes in Response to Socio-Economic Shocks	MINIACI RAFFAELE
PACI	SAMUELA	Spatial Spillovers of Firearm Regulations: A Panel Data Analysis of U.S. County Property Values.	PONTAROLLO NICOLA
PAGAN	MARTINA	Echo Chambers in the Online Discussions about ChatGPT: A Twitter-Based Analysis	LOCORO ANGELA
TLEMBAYEV	YERSULTAN	Assessment and refinement of an automatic dendrogram cutting criterion	MANISERA MARICA
VASTA	FRANCESCA	Beyond Binary Insider Threat Detection: A Framework based on Anomaly Signals and Behavioural Analysis for Preventive Threat Monitoring and Assessment	LOCORO ANGELA
		Dicembre 2025	

AGUDEY	EMMANUEL	A Comparative Analysis of Topic Modeling Algorithms: Performance and Evaluation	RIPAMONTI ENRICO
AQUILINI	ALESSIA	Artificial Intelligence Techniques for Intelligent Invoice Understanding: A Practical Approach	LOCORO ANGELA
BERTOLI	ELEONORA	Designing a server-side extension architecture for advanced statistical analysis in Qlik Sense using R and Python	MANISERA MARICA
BUIZZA	FEDERICO	L'Influenza delle Tecnologie Decentralizzate sulle Strutture Legali ed Economiche Tradizionali	PEDRAZZI GIORGIO
CAPELLETTI	THOMAS	Supervised learning for yield prediction in mown grasslands: a case study using multisource data	LOCORO ANGELA
MARTINOTTA	ALESSIA MARIA	COGITO: a COrteno Golgi Itinerary Tourist Optimization model	MORANDI VALENTINA
TONONI	ANDREA	Leveraging AI for sustainability: a study of fashion industry sustainability reports	LOCORO ANGELA
		Ottobre 2025	
BREVI	VIOLA	Benchmarking AI: A Critical Review and Proposal for Evolution Beyond Static Evaluation	LOCORO ANGELA
GRANDI	CAMILLA MARIA	The impact of the European Air Quality directive, empirical evidence on gas usage and air pollution in Italy	PONTAROLLO NICOLA
MARTUCCI	ROSARIO GIOVANNI	Application of Deep Learning Models for Surface Defect Classification in the Steel Rolling Process: A Case Study of Severstal SpA	FILIPPI CARLO
RICCA	MATTEO	Artificial Intelligence powered framework for the analysis of companies' annual reports	LOCORO ANGELA
		Luglio 2025	
BATTAGLIOLA	GABRIELE	Housing Market in Brescia Province: A Data Analysis of Remax Home District	GUERINI MATTIA
BERNEDO RENDEL	BENJAMIN	Win probability calculation with Long-Short Term Memory models and key moment detection for supporting post-game analysis	LOCORO ANGELA
PASINA	CLAUDIO PIETRO	OverModel: A Tool for Data Overview and Statistical Modeling	MANISERA MARICA
RAINERI	GIULIA	Data Science for Volleyball Analytics: Preparing and Modeling Data for Performance Prediction	MANISERA MARICA
		Dicembre 2024	
MONTINI	EMANUELE	Demand Forecasting in a Supply Chain: Traditional Techniques vs Machine Learning Methods	FILIPPI CARLO
ZOJZI	ANGJELO	"AI-assisted optimization algorithms for autonomous last-mile deliveries"	MORANDI VALENTINA
		Ottobre 2024	
AVANZI	CHIARA	Investors' interest in sustainability: applying Latent Semantic Analysis on textual data retrieved from social media	MANISERA MARICA
PIROLA	ALESSIO	Survival Analysis on Recurring Events as Decision Support in Predictive Maintenance: a business case	MANISERA MARICA
		Luglio 2024	
ALBERTI	FEDERICA	Integrating the Document-Term Matrix and Word Embeddings for representations of grouped text documents	MANISERA MARICA
